Flame Treatment Machine for Plastic bottles

Product Name: Flame Treatment Machine for Plastic bottles

Model: FT

Applications:

The flame treatment system is necessary equipment for those plastic bottles and products which is made of PP, PET, PE material's pre-treating process before screen printing for increasing the ink adhesion when printing.

Features:

Mainly used for the surface pretreatment of PE and PP etc plastic products. The machine is two sides equipped with baffle-boards to improve the heat efficiency. According to the size of your product that is to be printed, replace the taper support to meet the different bottle size

Parameters:

1. Max. Printing size: $\phi(25-60) \times (50-200)$ mm
2. Speed (Pieces/minute): 40 pcs
3. Machine size (L x W x H): 220 * 55 * 130 CM
4. Net Weight: 180 kg
5. Air Pressure (Bar): 5-7
6. Power: 220V one phase 50/60Hz 90W
