

Glass & Plastic CNC Screen Printing Machine

Model: CNCPT10-8

It can print the following shapes

Applications:

This is 1 color screen printer with LED UV or Normal UV curing system. This machine is full servo machine with flame treatment system. It both can print Glass and Plastic Bottles, containers, lipsticks, tubes, covers and glass wine bottles, beer bottles, glass cups, perfume bottles etc.

It can print shape of round, flat, square and oval etc.

Parameters:

Model	Machine Name	Printing Size (mm)	Speed (pcs/min.)	Air Pressure (Mpa)	Power	Weight (Kg)	Packing Size (L*W*H mm)
CNCPT 10-8	Glass\Plastic Bottle Screen Printing Machine	Lay on Loading Dia.10-40mm Height: 20-100mm	40-45	5-7Bars	380V 3P 25Kw	400kgs	L:1400 mm W:1300 mm H:2200mm
		Stand Up Loading Dia.40-60mm Height: 50-150mm					

Features:

1. Machine with flame treatment before screen printing.
2. Automatic loading and unloading system.
3. Machine With LED UV or Normal UV curing system
3. Automatic printing system with all servo driven: printing head, mesh frame, rotation, container up/down all driven by servo motors.
5. Fast tooling changeover time. All parameters automatic setting by touch screen.
6. All Ethercat servo motors with industrial PLC control & touch screen operation system, internet cable connection available, easy for future maintenance and upgrading
8. Safety operation with CE standard
9. LED UV ink or normal UV ink.
10. The CNC screen printer can equip with CCD (Camera registration) as per customer requirement.
